Error Description
Under certain circumstances it may happen that the starter program does not correctly perform the pre-check of the software requirements. The training program will not start in that case.

Solution
If this error occurs on your system download the patch provided below (WinZip-file, 3 kB). Extract the file in a directory of your choice. Then execute the file "Siemens_VDO.reg" by double clicking on it. Confirm the appearing question for registration entry with "Yes".
