

Insert paper roll

- ▶ Press the unlock button, the printer drawer opens.

- ▶ Insert paper roll.
- ▶ Make sure that the paper roll does not become jammed in the printer drawer and the start of the paper (1) extends beyond the edge of the printer drawer!
- ▶ Close printer drawer **centrally**. An interrupted printout is automatically continued when paper is inserted (< 1 hour).
- ▶ Pull the printout up and down over the paper cutting edge and then tear the printout from the roll of paper.

Messages

- (1) Pictogram and plain text of the message
 ! = Event, example [!e driving without card]
 x = Fault, example [x1 sensor fault]
 † = Driving time warning [†01 break!]
 Operational note, example [†no no paper]

(2) Memory code

For further messages and measures refer to the operating instructions.

Acknowledge message:

- ▶ Press key **OK** 2 times, the message disappears.

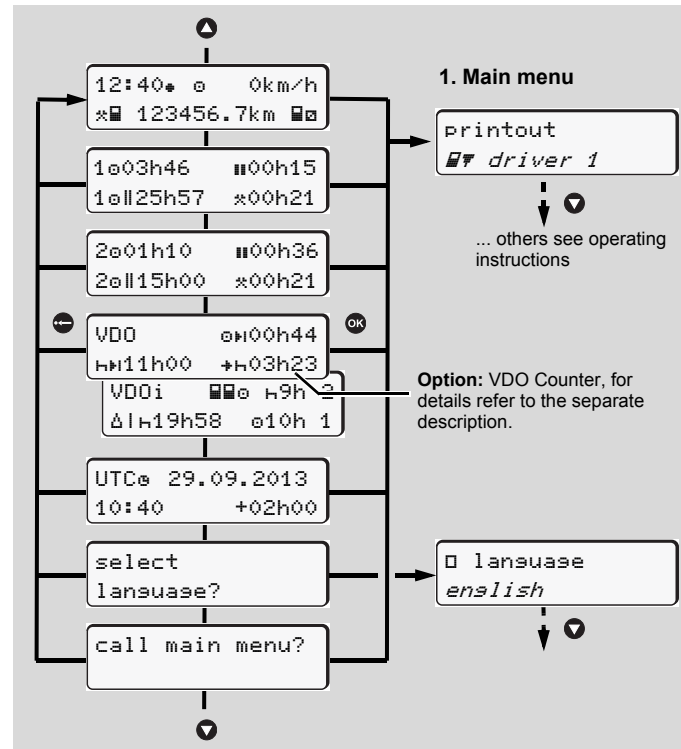

Times of the driver card(s)

- (1) Driving time "e" since a valid break time.
 (2) Valid break time "H", in accordance with regulation (EU) no. 561/2006.
 (3) Driving time over two weeks "eH".
 (4) Duration of the set activity.

Calling up menu functions

Possible only when the vehicle is stationary!

- ▶ Use the buttons **▲/▼** to select the desired display.
- ▶ Use button **OK** to call up the main menu.
- ▶ Use **▲/▼** to select the listed functions step by step.

Print daily value:

- ▶ [printout **driver 1**]... [24h **day**]... [25.10.2013]...
from Rel. 2.0 [printout in UTC **yes/no**]

Enter "Out of scope" beginning / end:

- ▶ [entry **vehicle**]... [OUT **begin**] or [OUT **end**]

Enter Beginning of ferry / train:

- ▶ [entry **vehicle**]... [**ferry/train**]
- ▶ Set the current activity.

Set Local time:

- ▶ [entry **vehicle**]... [**local time**]...
- ▶ Set Local time in steps of ± 30 minutes.

14.11.13 14:00
1M confirm entry? *yes*

14:01* 0 km/h
H 123456.7km H

Withdrawing driver card

- ▶ Switch on the ignition. (Required only for ADR variant "⊕".)
- ▶ Press the corresponding ejection button **▲**.
- ▶ Follow the menu guidance.

#? end country
:E
E AN

- ▶ Select, acknowledge the country.
- ▶ If present, select region, acknowledge.
- ▶ With button **⊖** you can abort the entry of a country if you, for example, want to continue your work shift.

24h#? day
26.10.13 no
26.10.13 yes

- ▶ If you need a printout, select "Yes", acknowledge.

from Rel. 2.0
printout in
UTC-time yes
UTC-time no

- ▶ Acknowledge "Yes" if you want a printout required by law. With "No", you will receive a printout in "Local time".

15:05* 0 km/h
H 123456.7km H

The driver card is released.

Setting activities

- ⊕ = Driving time (automatic when driving)
- * = All other working times (Automatically when the vehicle is stopped, for driver 1)
- # = Availability: Waiting times, co-driver time, sleeper-cab time during the trip (Automatically when driving or when the vehicle is stopped, for driver 2)
- H = Break times and rest periods

- ▶ **Driver 1:** Press button **1** until the desired activity (H # *) is shown in the display.

- ▶ **Driver 2:** Press the button **2**.

👉 At the end of a shift or during a break, always set activity "H"!

Automatic setting after ignition on/off (option):

18:01* 0 km/h
H 123456.7km H

Signalled by flashing of the activity or activities for approx. 5 seconds in the standard display (a). Then, the previous display will appear again.

- ▶ As required, change the activity accordingly!

Symbol "*" after ignition off means: IMS function (Independent Motion Signal) available.
